<input type="checkbox"/> Clothes Dryer <input type="checkbox"/> Cooking Range <input type="checkbox"/> Fireplace(s)-How many?___ <input type="checkbox"/> Pool/Spa Heater <input type="checkbox"/> Grill <input type="checkbox"/> Generator <input type="checkbox"/> Other:

To receive a rebate the propane supplier must have submitted this "Buyer's Rebate Application" before or upon installation of the equipment. The Propane Marketer Accredited Representative "PMAR" must return all completed paperwork (including documentation of the safety check and invoice for the appliance(s) to Shane Sweet at [Shane.Sweet@nypropane.com](mailto:Shane.Sweet@nypropane.com). **Note: All rebate payments are subject to available program funding. NEW July 15, 2018: If a consumer is installing both a hot water heater (new or existing LP burner tip) and a warm air furnace they can bundle these rebates together (maximum \$500 rebate to an individual customer at a single location).** The propane marketer seeking a rebate must submit a full and complete Buyer's Rebate Application. Submission of the Buyer's Rebate Application constitutes a representation on the part of participating propane marketer that the work shown on the form has actually been completed. A safety inspection must be performed by the participating propane marketer after the installation of each new qualifying appliance and the result of that inspection must be documented with the Buyer's Rebate Application. *The safety inspection accompanying the installation of the qualifying appliance(s) must include one or more of the following: 1) a leak test; 2) a pressure test if required by applicable laws, rules and regulations; and 3) a flow and lock up test on the regulator(s).* The propane marketer agrees to comply with all laws, rules and regulations governing the installation of the qualifying appliance(s) and with the manufacturer's installation instructions. The New York Propane Gas Association assumes no responsibility whatsoever for the installation, inspection or testing of the qualifying appliances or any associated gas system and, by issuing a rebate, makes no representation, warranty or guarantee regarding the qualifying appliance(s) or the associated gas system. The New York Propane Gas Association disclaims any liability for any personal injury, property damage, business losses or other damages of any nature whatsoever, whether special, indirect, consequential or compensatory, directly or indirectly arising from the installation of the qualifying appliance(s). **In 2018 propane-to-propane conversions & new construction installations are eligible. New construction appliances are eligible for the same rebate as "Conversions from other fuels" noted above in Step 1.**

<b>Step 6: Signatures</b>		
<b>Buyer(s)</b>	<b>Propane Supplier/Propane Marketer Accredited Representative "PMAR"</b>
