To receive a rebate the propane supplier must have submitted this Buyer's Rebate Application before or upon installation of the equipment. The Marketer Registration Form (PMF) Accredited Representative must return all completed paperwork (including documentation of the safety check and invoice for the appliance(s) to NY PERC via email or mail.

***PLEASE NOTE the maximum combined rebate available to an individual customer at a single location is \$550.00 per year. All rebate payments are subject to available program funding for installations occurring in 2025 through 12/31/2025 only.** The propane marketer seeking a rebate must submit a full and complete Buyer's Rebate Application. Submission of the Buyer's Rebate Application constitutes a representation on the part of participating propane marketer that the work shown on the form has actually been completed. A successful safety inspection must be performed by the participating propane marketer after the installation of each new qualifying appliance and the result of that inspection must be documented with the Buyer's Rebate Application. *The safety inspection accompanying the installation of the qualifying appliance(s) must include one or more of the following: 1) a leak test; 2) a pressure test if required by applicable laws, rules and regulations; and 3) a flow and lock up test on the regulator[s].* The propane marketer agrees to comply with all laws, rules and regulations governing the installation of the qualifying appliance(s) and with the manufacturer's installation instructions. The New York Propane Education & Research Council (NY PERC) assumes no responsibility whatsoever for the installation, inspection or testing of the qualifying appliances or any associated gas system and, by issuing a rebate, makes no representation, warranty or guarantee regarding the qualifying appliance(s) or the associated gas system. The New York PERC disclaims any liability for any personal injury, property damage, business losses or other damages of any nature whatsoever, whether special, indirect, consequential or compensatory, directly or indirectly arising from the installation of the qualifying appliance(s).
